

CL Challenger Lifts

Model#: CS1020WV

Versymmetric® inground lift
10,000 lb. lifting capacity

CS1020WV

Versymmetric®
Technology

A superior arm sweep, the widest drive-thru in the industry plus more service bays (smaller footprint than surface lifts) means even more revenue. CS1020WV EnviroLift™ cassette-style inground lift meets all the demands of a professional service facility.

CS1020WV services more vehicles with its double telescoping screw pads, Versymmetric® 3-stage arms and wide drive-thru. It protects your investment and the environment with its fully contained polymer housing (No EPA concerns). It also creates a professional showroom style appearance with its open aesthetically pleasing look.

Features & Benefits:

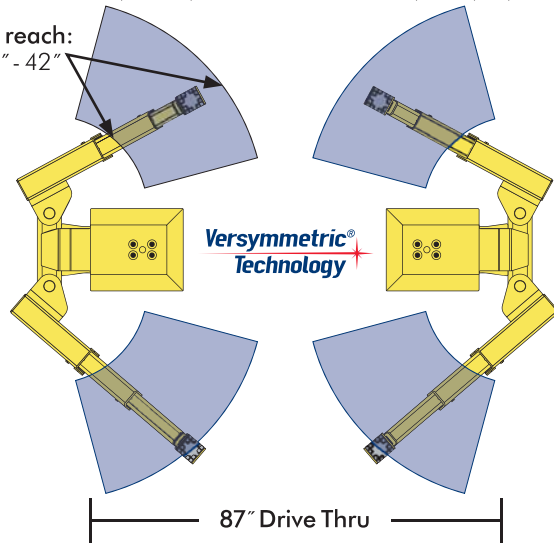

- 1 Accommodates a wider range of vehicles maximizing revenue potential per bay
- 2 Widest industry drive-thru eases vehicle spotting and reduces potential damage
- 3 Standard foot pad range reduces the need for truck adapters
- 4 Provides increased stability
- 5 Allows technician to work at their ergonomic working height to increase productivity and minimize fatigue
- 6 Promotes longer working life with its corrosion resistant design

CS1020WV	Specifications
Lifting Capacity	10000 lb. (4536kg)
Rise Height*	75" (1905mm)
Stroke	68" (1727mm)
Width Overall	110" (2794mm)
Drive-Thru Clearance	87" (2210mm)
Reach (Arm Minimum)	19 ⁵ / ₈ " (498mm)
Reach (Arm Maximum)	42" (1067mm)
Rubber Pad Adapter Min.	3 ¹³ / ₁₆ " (97mm)
Rubber Pad Adapter Max.	7" (178mm)
Capacity (Per Arm)	2500 lb. (1134kg)
Motor	2HP
Voltage (Single Phase Std.)**	208v-230v
Speed of Rise	48 Seconds
Air Required	75 - 125 psi
Recommended Ceiling Height	79" (2007mm) plus height of tallest vehicle

* Rise height is measured with superstructure in highest position.
 ** Optional 3 phase electrical also available, please specify at time of order.

Arm reach:
19⁵/₈" - 42"

Versymmetric® Technology:

CS1020WV lifts vehicles both symmetrically and asymmetrically within the same service bay. Its standard Versymmetric® 3-stage arms provide greater overall arm sweep, shorter arm retraction and an even longer reach than conventional inground lifts. It also still boasts the widest drive-thru in the industry.

The Automotive Lift Institute (ALI) certifies that the CS1020WV described herein comply with the applicable provisions of the American National Standards ANSI/ALI ALCTV 1998 and are Third Party Validated by the ETL Testing Laboratory.
